**RE: CCT 23/10: The Citizen vs. Robert McBride: Chief Justices: Re RH Amicus Curiae Error**

My apologies. I have become aware of information and evidence proving such information as accurate; that evidence which I submitted to this court in this matter was erroneous / inaccurate.

More specifically: At the time that I submitted the expert witness affidavit of Dr. Brad Blanton to this court; I believed that Dr. Blanton sincerely was committed to Radical Honesty; to honestly resolving the root causes of social conflict.

It has slowly become apparent to me that I was extremely naïve and that Dr. Blanton and his 'Radical Honesty' trainers are not remotely sincere about honestly resolving the root causes of – race, religion and class – resource war social conflict.

Awakening to Dr. Blanton's perjury has been a slow process; such as waiting for him to notify South African courts that he wishes to withdraw his expert witness affidavits – as per [my discussion with Brad Blanton and Radical Honesty Trainers; after I filed an application with Norwegian Oslo court in the matter of Norway v Anders Breivik; on the issue of free and fair trials for everyone, white or black, rich or poor, right wing or left wing](#)<sup>1</sup> -- and the perjury reasons for his withdrawal of his expert witness affidavits.

A copy of all the documentation and correspondence submitted to United States Federal Bureau of Investigation, the Police and District Attorney / Prosecutors Offices of the cities/towns wherein Dr. Blanton and his Radical Honesty trainers reside in USA, United Kingdom and Canada; and the Police Prosecutors Office's of George and Capetown; is available at: [FBI Fraud: Johnstone v Brad Blanton](#)<sup>2</sup>.

I sincerely apologize to the Concourt Justices and all other parties in this matter: for having provided the court with an affidavit from Psychologist: Dr Blanton; who it appears was committing perjury when he signed the expert witness affidavit; I submitted to this court.

I don't know if anyone else besides me actually considered Dr. Blanton's expert witness affidavit to be his sincerely held expert witness beliefs. Perhaps you all thought he was a lying two faced hypocrit. If so you were correct. As such perhaps the contents of Dr. Blanton's expert witness affidavit had no influence on your decision-making in the proceedings. If so: perhaps from your point of view it does not matter that he committed perjury?

I am unclear of the correct procedure for fixing a perjured expert witness affidavit submitted to a court proceeding. Do I simply inform the court; and the Justices initiate perjury proceedings; or should I notify the police?

Could the Justices kindly clarify (a) what the correct procedure is; if there is any; (b) what preference the Justices have for dealing with Dr. Blanton's expert witness perjury; if any.

Respectfully Submitted,

**Lara Johnstone, Pro Se**
